www.speechtherapygames.com

Use this sheet as a homework activity for your students. Some of the target sounds are done for you, the others you'll have to make up as you go. For older students, have them fill in their own words.

You could also use this for a language activity by writing opposite words or multiple meaning words in the web.

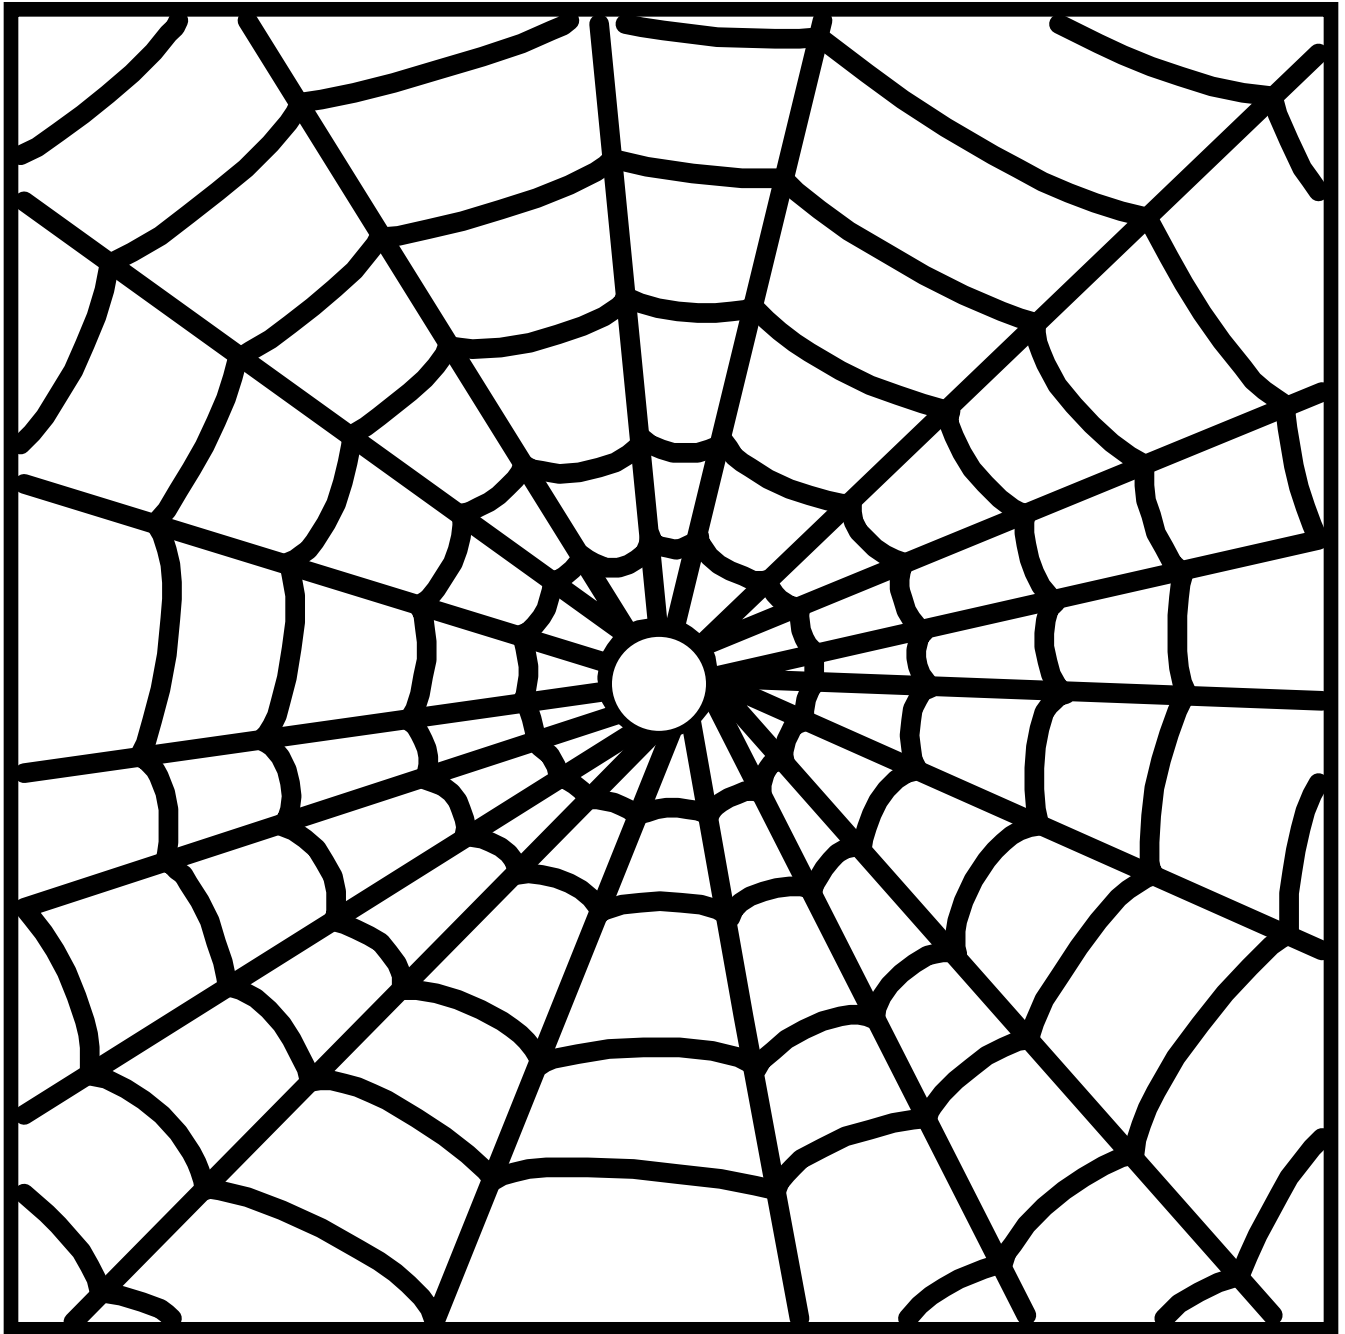

Print the spider page on a sheet of sticker paper (available at Wal-Mart or Office Depot, it is with the label paper, but is a whole sheet). Give your students a few spiders each to put in their webs.
